

# Natalia Rossi

**Conservationist**

**Focus: Crocodiles**

**Location: Cuba**

## **Favorite Part of the Job:**

- Working in the field, side by side with local conservationists, especially other women
- Putting all of my efforts toward creating a better future in harmony with nature

## **Challenges of the Job:**

- Sometimes it is overwhelming to face some of the challenges affecting the wild places where we work
- See firsthand the threats and the human-dimensions of conservation can be stressful at times and requires good problem-solving skills.

**Hobby:** Drawing and hiking

**Favorite Color:** Blue

*"There was never a time where science was more important, more needed and more urgent."*
